WORK EXPERIENCE

Master's degree in Information Technology with a strong focus on software development, artificial intelligence, cybersecurity fundamentals, and database systems.

Throughout the program, I worked on various technical projects involving system development, AI-based applications, Linux server environments, and database design. I gained practical experience using Linux operating systems such as Kali Linux and Ubuntu for development, security testing, and system administration.

The program enhanced my analytical thinking, problem-solving abilities, and technical skills in designing scalable software solutions and intelligent systems aligned with modern IT industry standards.

SKILLS

① CORE SKILLS

Software Development	Web Application Development	Backend Systems
API Development	AI Model Development	Data Analysis
Machine Learning Concepts	Automation Systems	Cybersecurity Fundamentals
Problem Solving	Technical Documentation	

EDUCATION

Information Technology (IT) | Master's Degree

Taiz University

📅 01/2026 📍 TAIZ, YEMEN

Master's degree in Information Technology with a focus on software development, artificial intelligence systems, cybersecurity fundamentals, and database technologies.

During the program, I worked on multiple technical projects including software system development, AI-based applications, Linux server environments, and database design.

The program strengthened my skills in problem-solving, system architecture, and advanced IT technologies used in modern software engineering.
